

I-deal™

1% Iodine Barrier Teat Dip

PRODUCT DESCRIPTION

I-deal™ is a unique germicidal 10,000 ppm iodine teat dip that forms a protective barrier on the teat. Helps control common bacterial organisms known to cause mastitis by providing broad spectrum antimicrobial protection after dipping.

BENEFITS

Promotes Udder Health and Hygiene

- Contains 1% titratable iodine, providing both a germicide and a barrier film on the teat
- Contains a 11% emollient system including glycerine for improved skin conditioning.
- Equally effective against both infectious mastitis organisms and environmental types, such as *Escherichia coli*
- Passes AOAC Germicidal and Detergent Sanitizer Test with a greater than 99.999 percent reduction of *Staphylococcus aureus* and *Escherichia coli* organisms
- Non-irritating formula aids teat conditioning; gentle on teats and hands
- Film former and wetting agent allows product to cling to the teat

Versatile – Cost Effective

- Ready-to-use formula reduces wasteful, excessive consumption
- Easier to remove than latex barrier type dips – reduces prepping time
