

Liquid Pfite™

Heavy-Duty Liquid Chlorinated Alkaline Detergent

Liquid Pfite is a heavy-duty liquid chlorinated alkaline cleaner designed for effective cleaning of large systems.

Features and Benefits

- **Concentrated Formula**

Provides excellent cleaning performance at low-use concentrations.

- **Contains Powerful Sodium Hydroxide**

Provides excellent cleaning in medium to large systems with moderately hard water.

- **Highly Chlorinated**

Provides quick and thorough milk protein removal.

- **Superior Detergent Action**

Provides excellent cleaning in complex milking systems.

- **Polyacrylate Sequestration System**

Powerful sequestering action holds hardness, minerals and soil loads in suspension to prevent mineral and soil deposits.

- **Phosphate Free/
Environmentally Friendly**

Biodegradable and dissipates in sanitary systems.

- **Rinses Quickly**

With low-foaming qualities, Liquid Pfite rinses free with no residue.

- **Safe**

Safe to use. Non-corrosive to stainless steel, glass, plastic or rubber parts when used as directed.

- **100% Customer Satisfaction**

All GEA Farm Technologies hygiene products have a 100% Customer Satisfaction Guarantee.

Liquid Pfite™

Heavy-Duty Chlorinated Alkaline Detergent

Directions for Use

For cleaning pipelines and milk tanks:

1. Rinse pipeline with clean, warm 110°F (43°C) water immediately after use or as soon as tank is emptied
2. Prepare a fresh wash solution in hot 160°F (71°C) water. The amount of Liquid Pfite required for proper cleaning is related to water quality and system design.

Recommended dilution: One ounce (30 ml) to 3 gallons (11.3 L) of water. Dilution may need to be adjusted depending on water hardness. Please consult with your GEA Farm Technologies dealer or hygiene specialist. Circulate wash solution for 10 minutes or until temperature drops below 120°F (49°C).

3. Follow with an acidification rinse using a GEA Farm Technologies acid and drain thoroughly.
4. Prior to milking, sanitize with a GEA Farm Technologies sanitizer according to local health department regulations.

Store this product in a cool, dry area, away from direct sunlight and heat to avoid deterioration. Keep containers closed to prevent contamination of this product.

Product Properties

Appearance:	Clear, light yellow liquid
Odor:	Chlorine
pH:	12.3 (1 oz./gal. water)
Specific Gravity at 77°F (25°C):	1.21 (water = 1)
Foam:	Non-foaming, suitable for C.I.P.
Rinsibility:	Free rinsing
Solubility:	Complete at recommended use dilutions
